BUSINESS BREAKFAST – HERMAN MASHABA

We had a well attended business breakfast at **Hogan Lovells** with Herman Mashaba speaking on the 17th of March. After giving us some interesting insights into his early life living under the apartheid regime, Mr Mashaba spoke about his drive to improve Johannesburg City. For example he is deploying an additional **1500 police** to the JMPD in order to boost security and crime prevention. He has also identified a need to construct **300,000 housing units** in the city centre to provide decent housing to the poor. Mr Mashaba highlighted his view that a better Johannesburg City will assist in boosting a better South Africa for all.

Mr Mashaba described how once starting his role as Mayor, he discovered that that there was more than corruption taking place in the City offices but in fact “**looting**” of government resources as he put it. This is obviously one of the key areas that the Mayoral team is now tackling.

THE ONE-STOP-SHOP INVEST SA

One of our committee members Farai Chabata represented ABCSA at the **One Stop Shop Invest SA** launch (run by

the DTI) in Pretoria on 17 March. This launch goes down as one of the legacies of the present government's commitment to attracting business to South Africa and its commitment to creating an inclusive economy which accommodates International Investors to contribute to the country's growth while creating mutually beneficially relationships. The One Stop Shop will have all spheres of regulatory bodies under **one roof** so Investors do not have to deal with multiple departments in order to finalise business transactions. The One Stop Shop is aimed at providing a speedy and seamless route when processing the paperwork needed to complete business dealings. The event was attended by **President Zuma**, Minister of Trade and Industry **Rob Davies** and the Minister of Small Business Development **Ms Lindiwe Zulu** who spoke about creating a conjunctive environment for investment and reiterated the importance of Small Business to the growth and sustainability of South Africa's economy. Minister Zulu has been very vocal and active in her quest to convince the

International community of the value of Small and Medium Businesses from South Africa to the world.

He is returning to Australia to take up a new position with his current company **Orica** (Mining explosives and chemicals). Dan has been running the finances for the Chamber and has been instrumental in setting up an accounting system to keep all the numbers in order. We all thank Dan for his work at the Chamber and wish him the best of luck with his new role. This means that the Chamber needs a new treasurer.
